KEYWORD	VOLUME	KD	POSITION	TRAFFIC	STATUS	RANKING URL
pupil wellbeing	80	1	10	2	Non-brand ranking	/pupil-wellbeing-strategy-schools/
hip psychology	0	0	1	1	Existing brand ranking	/
emotion coaching in schools	10	0	6	1	New since Week 6	/emotion-coaching-in-schools/
define pastoral support	40	0	7	1	Non-brand ranking	/pastoral-support-in-schools/

Note: Ahrefs data in this report comes from the Ahrefs API pull on 18 June 2026. Live URL QA was run separately against the WordPress post and page sitemaps, with all 252 sitemap URLs returning HTTP 200.

SEARCH CONSOLE SIGNAL

First-party Google data shows broader discovery and better average positions.

PERIOD	CLICKS	IMPRESSIONS	CTR	AVG POSITION	WHAT IT MEANS
2026-05-01 to 2026-05-30	125	3,707	3.4%	12.6	Week 6 comparison window.
2026-05-18 to 2026-06-16	207	6,371	3.2%	9.7	Latest complete 30-day window available in GSC; impressions and clicks are both up.
2026-06-10 to 2026-06-16	42	1,781	2.4%	7.9	Recent weekly snapshot after continued content expansion.
2026-06-01 to 2026-06-16	131	3,976	3.3%	8.0	June-to-date available data, allowing for normal Search Console lag.

Interpretation: The site is still in the early SEO compounding phase, but the signal is cleaner than Week 6. Impressions are up, clicks are up, and average position has improved from **12.6** in the Week 6 window to **9.7** in the latest 30-day window. The next practical job is to turn this discovery into more qualified clicks by tightening titles, internal links and conversion paths around pages that Google is already testing.

WHAT WE DELIVERED SINCE WEEK 6

65 new posts across school wellbeing, behaviour, regulation, safeguarding, anti-bullying, online safety, friendship and belonging.

Content Production

- Published 65 additional WordPress posts after the Week 6 report.
- Expanded the site from 95 posts to 160 posts.
- Strengthened clusters around pupil wellbeing, mental health, exam stress, behaviour support, regulation, safeguarding, cyberbullying, pupil voice and school belonging.

Technical QA

- Each batch was checked for live HTTP 200 status.
- Recent posts include Article and FAQPage JSON-LD.
- QA checked one-H1 structure, H2 depth, contact CTA, latest feed inclusion, sitemap inclusion and leak markers.

Search Readiness

- All 160 post URLs appear in the native WordPress post sitemap.
- Fresh sitemap submissions were completed after the latest 18 June batch.
- Ahrefs now shows an additional non-brand page ranking for emotion coaching in schools.

TECHNICAL NOTES

CHECK	CURRENT STATUS	ACTION
WordPress post sitemap	160 post URLs live	Use native WordPress sitemap as source of truth.
Live sitemap QA	252/252 URLs return 200	Keep checking after each bulk publish.
Legacy sitemap	67 URLs only	Replace or de-prioritise stale /sitemap.xml route.
Backlink profile	211 live referring domains	Next win is quality/authority and relevance, not only more content volume.

NEXT 30 DAYS

1. Indexation & CTR

- Monitor GSC impressions for the new 65 posts.
- Find pages with impressions but low CTR.
- Rewrite titles/metatags for the highest-impression opportunities.

2. Internal Links

- Link from service/workshop pages into the strongest educational articles.
- Add related-article blocks between cluster pages.
- Push high-intent readers toward /contact-us/ and workshop pages.

3. Authority & Conversion

- Prioritise education-relevant citations and partner links.
- Use the strongest anti-bullying and wellbeing resources as outreach assets.
- Start tightening the pages that already show page-one discovery.
